The Four Basic Legal Agreements Every Coach Needs

Was your contract drafted or reviewed by a business lawyer who knows the coaching community?

Chances are the answer is no.

Gene PolICASTri helps business coaches, life coaches, healers, mentors and others in the personal development community protect their businesses and get paid for their services. He has developed the:

“Four Basic Legal Agreements Package”

This package combines templates with personal customization of one of the agreements by me to fit your business. If you don't have contract documents ready to use, or, if you have them but they were not drafted by a lawyer familiar with the coaching community, we should have a conversation about whether you have the protection you need.

WHAT WILL YOU LEARN?

- ✓ Establishing the coaching agreement.
- ✓ Setting appropriate guidelines and parameters of the relationship including payment of fees and managing risk.
- ✓ Drafting effective scopes of services so that it is clearly communicated to the client that coaching is not therapy, consulting or other professional services.
